This is one of the greatest games I have ever played in my entire life.. this game is as half baked as my review. If you're looking for a SWAT 4 like shooter, look no further.. A charming and fun multiplayer game about property destruction (or property reconstruction, if you prefer to play as the babysitter), this is a nice early access title. Granted, there's only a couple levels and two kinds of precocious monster-babies to play as, but it's clear there are hooks for more and the game will continue to be updated. Includes a single-player and online mode, which is a pleasant surprise for a game that could stand on its own as a local multiplayer title. Definitely worth getting in on the ground floor during early access for the low price, especially if you're looking for something lighthearted to play with a young kid. Just don't let them take any lessons from the were baby!. I had high hopes off the bat it seemed really well polished and it is but that hides a shell of a game that is quickly losing its luster and its players. Since co-op was put in I've only been able to play one match via matchmaking one for about two weeks. I just think this game is going nowhere fast and with stuff like Last Epoch, Grim Dawn, Titan Quest new expansion, Torchlight Frontier and Path of Exile firing on all cylinders this game will be forgotten fast.....save you money. I own this simulator for more than a year and I spent a couple of hours every week to practice my RC Heli skills on simulator and in real world.

I tried Phoenix 5.x, Realflight 7.x and Heli-X before and I would say they all have pros and cons. However after trying ACCURC I seldom go back to other simulators just simply because it's the most realistic one.

Like all other simulators, it WILL NOT work perfectly out of the box. You have to fine tune the settings to suit your taste and tweak the helicopter to match with your flying style and your skill level, similar to what you are doing in real world, and that is why I enjoy flying RC helicopters.

For users new to ACCURC I would recommend you to switch camera mode to pilot view, turn off auto zoom, using mouse wheel to zoom out max (widest view angle) and then zoom in with your mouse wheel about 3 clicks. I found this gives you best view angle with less visual distortion and make my eyes and brain feels more comfortable.

At last I would recommend you to start with GAUI X7 as I found it flies a bit better than other models out of the box. . shows potential as a classic overhead arcade shooter but right now it crashes randomly, its literally a Flash game on Steam, the inventory system makes no sense, the enemies are too tough, and the developers just took pictures of themselves and made those cutscenes. Boring not scary and badly made.. Super cute game, great writing and art design. I totally love small weird indie games like this, it's refreshing to have a game I can complete in under an hour. After playing this I checked out Grace Bruxner's other games on Itch.io and loved them. Hope a sequel gets made, I'm dying for more Frog Detective adventures!. it plays like a flash game, enough said

Brilliant and fun game! Classic point and click with great humor, weird story, just the right kind of madness and entertaining puzzles to solve. I find it strange that this game hasn't gotten more notice. I feel I stumbled upon a hidden gem and it made this rainy cold saturday pretty perfect.

Some of the translations are a bit off, but it doesn't bother me. I recommend this to all that love point and click, quirky humor and solving nutty puzzles.. This is a sweet little puzzle game. Like the graphics & the music. :). Do you like gamesss? I want to play a game with you... Called cannon brawl! Intense quick thinking game, with upgrades to the buildings and unlock new ones! If you are into fast thinking games aiganst other players, you have to get this! I wanted this game so badly after I saw Tokshen playing it, and I dig this. Here is the major con though, There is NOBODY playing this game right now. You see only 15 at a time. Please, spread the word and get people to play!. Game doesn't explain the controls or what you have to do!
No tutorials!!

I walk around in a place and then I feel that someone is attacking me from behind.

I turn around to see that it's some kind of person and then I die!

Then I quit and delete the game forever from corrupting my computer anymore!

WORST GAME EVER!!!!. A lovely little game. If you enjoy point and click simple puzzlers, check this out. The music is incredible on its own, but the level of creativity on display really makes it seem like this game meant a lot to it's creator. And for all this, it's free. I almost wish they would charge money for it so I could support more games like this.. I could slow down time. 100/100. Wasn't interested. Bonus games are unlocked gradually through the game, each being a different kind of solitaire. I've learned a few new (to me) versions that I quite like..
