Amazing game.

I really loved easter eggs.

I really loved easter eggs.

Recommended. The concept for this game seemed really good, but sadly it is not executed well at all.

The controls are terribly... wonky. To run you have to bob your head up and down, which obviously doesn't work well when you have something strapped to your head... like a VR headset. The controls for things like javelins and the guns in skeet is also terrible. The skeet gun is positioned horrible, like if you were to hold a shotgun with only 3 fingers. The javelin is also at a very awkward angle.

There is next to no tutorial for anything. If you mess up even slightly you are basically invalidated.

Not at all recommended. Perhaps in the future it will be better, but for now it isn't good at all.. The concept for this game seemed really good, but sadly it is not executed well at all.
